RE Docket No. OOP-1211/CPl, Docket No. 99N-4282

Dear Commissioner Henney:

Please use your influence to require labeling of genetically engineered foods. I need to know and decide what I am eating.

More thorough testing is desirable, too. For every effect there may be side effects, not all good. Remember thalidomide, so desirable people went overseas to get it; remember lead improved application of paint; remember DDT would kill the bugs and feed the world...and on and on.

I may in the future accept genetically engineered food. But let's make haste slowly.

Very sincerely,

Laura N. Stauffer
